**BOROUGH of GODMANCHESTER**

---

**ANNUAL REPORT**

**OF THE**

**MEDICAL OFFICER of HEALTH**

**AND**

**PUBLIC HEALTH INSPECTOR**

**UPON THE**

**SANITARY CONDITIONS of the DISTRICT**

**DURING YEAR 1960**

ANNUAL REPORT FOR THE YEAR ENDED 31st DECEMBER, 1960

by

J. Caldwell L.R.C.P., L.R.C.S., L.R.F.P & S., D.P.H.  
Medical Officer of Health

Mr Mayor, Aldermen and Councillors,

I have the honour to submit my Annual Report of the Health and Sanitary conditions of the Borough for the year ended 31st December, 1960.

Some increase in the Birth Rate over last year's figures is noted and the rate for the Borough continues to maintain a considerable lead over the National average.

Exactly the same number of Deaths took place in the Borough this year, as did in 1959 and consequently the Death Rate remains practically the same.

As in the neighbouring Borough of Huntingdon, the incidence of Notifiable Infectious Diseases this year was more than 50% less than in 1959, there being relatively fewer cases reported in both years.

Tenders were invited for the final extensions to the sewerage of the Borough to cater for those properties not initially included in the scheme.

Eight Council flats were completed during the year and by a system of exchanges it was possible to use six of these for Slum Clearance purposes.

Progress was made on the slum clearance programme - thirteen houses being demolished during the year. In addition a number of houses were improved by a system whereby two adjoining substandard dwellings were converted into one modern house.

Private development got well under way and a considerable number of dwellings were completed during the year.

In conclusions, I would like to thank all Members of the Council for their kindness during the past year, and all Officers for their kind help and co-operation.

I am,

Yours obedient Servant,

J. Caldwell.

THE UNIVERSITY OF CHICAGO

DEPARTMENT OF THE HISTORY OF ARTS

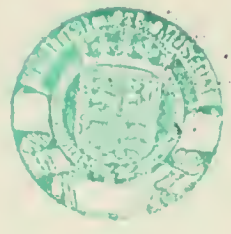

CHICAGO, ILLINOIS

TO THE HONORABLE CHAIRMAN OF THE BOARD OF TRUSTEES  
OF THE UNIVERSITY OF CHICAGO  
FROM THE DEPARTMENT OF THE HISTORY OF ARTS  
SUBJECT: A REPORT ON THE PROGRESS OF THE DEPARTMENT  
DURING THE YEAR 1900-1901

The Department of the History of Arts has during the year 1900-1901 been engaged in a number of important projects. The most important of these have been the completion of the History of Art Survey, the publication of the History of Art Survey, and the completion of the History of Art Survey.

The History of Art Survey is a comprehensive survey of the history of art from the beginning of the world to the present. It is a work of great magnitude and importance, and its completion is a great achievement for the Department of the History of Arts.

The History of Art Survey is a work of great magnitude and importance, and its completion is a great achievement for the Department of the History of Arts.

THE JOURNAL OF THE

ROYAL ANTHROPOLOGICAL INSTITUTE

## GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

### (a) Laboratory Facilities

The following Laboratory Facilities have been available to the Authority and to the General Practitioners in the area:-

Public Health Laboratory Service, Tennis Court Road  
Cambridge (Tel: Cambridge 55526)

Public Analyst (S.Greenburgh, Ph.D., B.Sc., F.I.C.)  
Tennison Road, Cambridge (Tel: Cambridge 2097)

### (b) Ambulance Services

Ambulances administered by the County Council Ambulance Service operating in conjunction with the County Fire Service have been available on doctor's orders. (Tel: Huntingdon 348)

### (c) Home Nursing

A Nurse/Midwife residing in Godmanchester (Tel: Huntingdon 609) employed and supervised by the Huntingdon County Council carries out Home Nursing and attended Maternity cases in the Borough.

### (d) Clinics and Treatment Centres

(i) The following Health Services provided by the Huntingdon County Council were available:-

| <u>Clinic</u>  | <u>Patients Seen</u>  | <u>When Held</u>  | <u>Where Held</u>                  |
|----------------|---|---|------------------------------------|
| Minor Ailments | Schoolchildren  | Every Monday<br>9.30 - 10.30 a.m.   | Old Grammar School, Huntingdon     |
| Infant Welfare | Children<br>(0-5 years)   | Every Tuesday<br>2 - 4 p.m.   | Old Grammar School, Huntingdon     |
| Dental         | Pre-school and Schoolchildren<br>Pre-natal and Nursing Mothers. | Every Tuesday and Thursday.<br>9.30 - 12 noon<br>1.30 - 4.30 p.m.<br>Every Saturday<br>9 a.m. - 12 noon | 10a, Princess Street<br>Huntingdon |

(ii) The following Health Services are provided by the Regional Hospital Board.

| <u>Clinic</u>    | <u>Patients Seen</u> | <u>When Held</u>  | <u>Where Held</u>                    |
|------------------|----------------------|---|--------------------------------------|
| Chest            | All ages             | Every Thursday<br>10 - 12 noon                          | County Hospital<br>Huntingdon        |
| Veneral Diseases | All ages             | Tuesday 3 - 6.30 p.m.<br>Thursday 4 - 6.30 p.m.         | Addenbrooke's<br>Hospital, Cambridge |
|                  | Males                | Monday 4.30 - 6.30 p.m.<br>Tuesday 5.30 - 7.00 p.m.     | Out-Patients<br>Department           |
|                  | Females and Children | Tuesday 10.30 - 12.30 p.m.<br>Thursday 4.30 - 6.30 p.m. | Memorial Hospital<br>Peterborough    |

| <u>Clinic</u> | <u>Patients Seen</u>          | <u>When Held</u>   | <u>Where Held</u>                |
|---------------|-------------------------------|--|----------------------------------|
| Orthopaedic   | Pre-school and Schoolchildren | Every Tuesday<br>10.am. - 12 noon<br>(Surgeons by Appointment) | Old Grammar School<br>Huntingdon |

(iii) The following service is provided under the Supplementary Ophthalmic Scheme of the National Health Service:-

| <u>Clinic</u> | <u>Patients Seen</u>          | <u>When Held</u>   | <u>Where Held</u>                |
|---------------|-------------------------------|--|----------------------------------|
| Ophthalmic    | Pre-school and Schoolchildren | 1st and 3rd Fridays<br>in month (by appointment except in emergency)<br>10.30.am. - 12 noon<br>2 - 3.pm. | Old Grammar School<br>Huntingdon |

Medical, Surgical, Orthopaedic, Paediatric, Skin, Obstetrical Gynaecological and Dental Out-Patients Clinics are held at Huntingdon County Hospital and Addenbrooke's Hospital Cambridge, to which General Practitioners can refer their patients for specialist investigation.

#### (e) Hospital Services

Fever - Cases of infectious diseases requiring hospital treatment are admitted to Isolation Hospitals, at Cambridge and Peterborough and the Isle of Ely.

General Hospital Services - are provided by the County Hospital Huntingdon and Addenbrooke's Hospital, Cambridge.

Maternity Cases - Maternity facilities are provided at Primrose Lane Maternity Hospital, Huntingdon and at Mill Road Hospital, Cambridge.

# PUBLIC HEALTH INSPECTORS REPORT, 1960

## HOUSING

### Slum Clearance

Six families were rehoused during the year. Four of these were from individual unfit houses and two from the Pipers Lane - Eanring Street Clearance Area No.2. Twelve unfit houses have been demolished and eight have been made fit as a result of informal action. A survey of properties in Pipers Lane - London Street was undertaken and a programme of clearance and improvement agreed upon.

Approximately half of the 214 houses included in the report submitted to the Ministry of Housing and Local Government in 1954 have now been dealt with by demolition of some and improvement of others. The proposals already in hand will deal with a further 20 dwellings.

### Council Houses

A further eight flats have been constructed and a flat in Island Hall has been converted into two small flats. The twenty dwellings commenced last year are nearing completion. Three cottages have been purchased for improvement.

The Council Housing List still contains 96 applicants as only three cases other than families from unfit houses have been offered accommodation. The demand is almost equal between those at present sharing accommodation and those in outdated or unfit accommodation.

### Private Housing

The Tudor Estate Development has made headway and the total of 14 houses completed by private builders during the year includes 12 on this particular site.

### Housing Improvements

The modernisation of 50 houses at Cambridge Villas is now complete leaving only eight Council owned houses still without the accepted modern amenities.

Eight Discretionary Grants and four Standard Grants were approved and all except two have been completed.

## WATER SUPPLY

The daily consumption of water per head increased to nearly 32 gallons per day. This was due to the continued trend in the modernisation of properties in the Borough.

Twenty-five samples were taken during the year and found to be suitable for human consumption although small readings were obtained on four of these samples. While an increase in the amount of chlorine used would have meant negative readings on all samples complaints would have then been received of over chlorination in some parts of the Borough.

## SEWERAGE AND SEWAGE DISPOSAL

The main system of sewerage has continued to give little trouble and the Cow Lane Disposal works has given rise to no complaints.

The sewer dykes were well cleaned early in the year but troubles have occurred with the old length of sewer still connected to the old system. A contract for the replacement of these sewers in Pipers Lane and St Anns Lane is shortly to be placed.

The bi-weekly collection of night soil continues from those premises still without water closets. Disposal is by flushing in to the main sewers.

## REFUSE COLLECTION AND DISPOSAL

Collection of household refuse has continue to be made weekly. A tractor and trailer is manned by two men with occasional help. The same vehicle and men have been used to control the London Road and Cambridge Road tips.

The Cambridge Road tip has worked smoothly except for a small fire on one occasion. The London Road tip is, close to the main road and unauthorised tipping is continually taking place.

## STREET CLEANING

One fulltime and three part-time employees have swept County and Borough roads. Gully cleaning has been carried out by Council employees using the **tumbrel** cart and scoop. The same employees have maintained verges and applied weed killer to paths and verges.

## RIVER

The usual river bathing took place but the bathing station has been converted into football club dressing rooms.

No report of any case of disease attributable to bathing in the river has been received.

The river banks were cut regularly and treated with weed killer. Less insects were present and the Recreation Ground has become more popular than ever.

There were several floods at the end of the year and on two occasions the level 31' 2" A.O.D was reached. Normal level at this point is 26' 0". No houses were flooded and although the caravan site was flooded the floors of all caravans in use were above water level.

The sewerage pumps at the Avenue Pumping Station were controlled by hand when the river water entered part of the system.

### CARAVAN SITES

The new Caravan Sites and Control of Development Act comes into force at the end of the year.

There are three individually licensed caravans and one licensed site for 22 caravans in London Street. The Boathouse Meadow site is continuing on a reduced scale pending a decision from the County Planning Authority.

### PREVENTION OF DAMAGE BY PESTS ACT

The Council's driver is a trained operator and he has continued to make regular treatment of Council tips and other premises upon receipt of complaint. Very few premises have been inspected by routine survey under the Act but many premises have been inspected when visited primarily for other purposes.

### FOOD AND DRUGS ACT

No slaughtering has taken place during the year. The proprietor of the only slaughterhouse in the Borough has notified the Ministry of Agriculture, Fisheries and Food of his intention not to use the slaughterhouse again. The Council have agreed that the needs of the area can be met by the provision of suitable facilities at St Ives. This information was included in the report submitted to the Minister as required under the Slaughterhouses Act, 1958.

Six supplementary licences were issued under the Milk (Special Designation) Regulations and eight premises were registered for the sale of Ice Cream. Eight samples of ice-cream were taken and sent to the Public Health Laboratory for testing. The reports on all samples were satisfactory.

### GENERAL

The proportion of my time spent on Public Health duties has been increased again this year with advantage. The amount of time spent on the items reported upon has however left little time for the inspection of food premises. This is a facet of the Council's Public Health obligations which is due for some priority.

C.W. Parcell.,

M.A.P.H.I., A.R.S.H

Public Health Inspector.

## SUMMARY OF INSPECTIONS

### Public Health Act, 1936

|     |   |     |     |     |     |     |
